MILITARY COILS TIGHTENING ABOUT BUCHAREST

Zeppelin Raid on English Coast Towns—One Large Airship Attacked by Aeroplanes of the Royal Flying Corps is Brought Down in Flames—Six Bombs Dropped on London by High Flying Zeppelin.

BERLIN, IN REPORTING CONTINUED PROGRESS OF THE TONIC INVASION OF ROUMANIA TODAY, TELLS OF THE CAPTURE OF GIURGIU, ON THE DANUBE, AND THE TAKING OF CURTEA DE ARGES, ON THE ARGECHU RIVER 80 MILES NORTHWEST OF THE CAPITAL.

The capture of Giurgiu places Field Marshal von Mackensen but 37 miles from Bucharest. In occupying Curtea De Arges, General von Falkenhayn's troops apparently have driven the Roumanians from the line of the Topolog.

Thus, the semi-circle drawn about

Bucharest and the Roumanian army is gradually, but steadily, being drawn closer.

Substantial progress is reported by Berlin in the new operation for tightening the grip.

Another raid by German naval forces near the English North Sea coast is announced today. The capture of one vessel is reported. The raid took place near Lowestoft.

Berlin today emphasizes the importance of the German-Bulgarian success in defeating a strong attack by Entente forces along a wide front in the Monastir region.

Extremely heavy losses are declared

to have been suffered by French, Serbians, Italians, and Russians in an assault which is said to have netted them nothing.

Flying at a great height, a German aeroplane this morning passed over London and dropped six bombs on the capital, according to an official statement issued this afternoon. Four persons were injured and only slight material damage, it is said, was caused.

London reports the military situation in Roumania as improving for the Roumanians. The news was carried in a message from Bucharest, by way of Rome.

Field Marshal von Mackensen is said to be making no material progress. The Roumanian retreat, it is added, is proceeding in perfect order on a settled front.

The Greek Government today appealed to the neutral nations, through the Greek diplomats at the respective neutral capitals, against "the coercions being employed by the Entente Powers toward Greece," says an Athens dispatch.

ZEPPELINS ACTIVE

(Associated Press Cable.)

London, November 28.—Two Zeppelins were brought down in Mon-

day night's raid on the northeast coast of England. The crews of both airships perished. The official account of the raid was issued this morning.

"A number of hostile airships approached the northeast coast of England between 10 and 11 o'clock last night.

"Bombs were dropped at various places in Yorkshire and Durham. The damage is believed to be slight.

One airship, attacked by aeroplanes of the Royal Flying Corps, was brought down in flames into the sea off the coast of Durham.

"Another airship crossed into the

north midland counties and dropped bombs at various places. On her return journey she was repeatedly attacked by aeroplanes and guns.

"She appeared to have been damaged, for the last part of the journey was made at very low speed. She was unable to reach the coast before day was breaking.

"Near the Norfolk coast she apparently succeeded in effecting repair and was proceeding east at high speed and at an altitude of over 8,000 feet, when she was attacked nine miles out at sea by four machines of the Royal Naval Air Service and an armed trawler and was brought down in flames at 6:45 a. m.

"Full reports of the casualties and damage have not yet been received,

but they are believed to be slight.

The destruction of two Zeppelins in Monday night's raid makes a total of five of the great dirigibles which have been destroyed in the three latest attacks by German airmen on British towns.

On September 3, one Zeppelin was brought down in flames close to London, and on September 23 two more were destroyed by anti-aircraft guns near the London district.

On November 18, Petrograd reported that Russian troops near Pinsk, on the eastern battle line, brought down a large Zeppelin and captured the crew.

One woman was killed and sixteen persons injured in the Zeppelin raid. The airship dropped 100 bombs.

Eight dreadnaughts of the Atlantic fleet put into port at New York so that the officers and men might witness the oil burning superdreadnaught Pennsylvania. The flagship went to the Polo grounds and gave the people of the city and surrounding territory a chance to see some of the navy's biggest vessels.

The fleet is in command of Admiral Henry T. Mayo, whose flagship is the oil burning superdreadnaught Pennsylvania. The flagship went to the Polo grounds and gave the people of the city and surrounding territory a chance to see some of the navy's biggest vessels.

The New York led the flotilla into port, and she was followed by the Texas, Oklahoma, Connecticut, Florida, Wyoming and Utah. It was expected that President Wilson would visit the ships, but a cold kept him in Washington.

G. O. P. COMMITTEEMEN ARE IN SESSION TODAY

By Associated Press Dispatch. Columbus, O., November 28. — It was said to be a foregone conclusion that the Republican State Central and here in executive session this afternoon, would authorize permanent headquarters to be maintained in Columbus, during the next two years, to "watch the Democratic Admini-

stration" and keep up an organization for the campaign two years hence.

The question as to whether Governor Willis should call a special session of the Legislature before he leaves office to probe the high cost of living, and, incidentally, secure Senate confirmation of his appointments, was being discussed by committeemen, as was also the possibility of a recount.

JESS WILLARD'S PRICE

Chicago, Nov. 28.—Fifty thousand dollars is what Jess Willard wants for his next bout and that is the proposition he will hand to Tex Rickard and Tom Andrews, of Milwaukee, who are here to talk terms with the heavy-weight champion. Willard will see neither Rickard nor Andrews until Tom Jones, his manager, returns from Hot Springs.

ANOTHER DROP IN WHEAT PRICE FALLS 13 CENTS

Chicago, November 28.—(Associated Press Dispatch)—Wheat prices went to pieces late today in a general stampede to sell.

Extreme losses of thirteen and five-eighths cents a bushel were shown for a brief interval, the December delivery falling to \$1.60, as compared with \$1.73 1/2 to 5/8 at the close yesterday.

Rallies, however, took place before today's session ended, and the finish, although excited, was at a setback of five cents to seven and five-eighths cents net.

Embargoes announced on six railroads, shutting off grain outlets from here to the seaboard, had much to do with starting the wild attempts to unload.

Word of German naval activity on a big scale was taken to indicate possibility increased difficulty for grain exports in shipping from the United States, which tended, also, to put holders of wheat into a semi-panic.

We Wish You A Thanksgiving That
Knows No Regrets—That When
Past Shall Be, Indeed, A Happy Memory

Welcome Home, Son!

Can't you almost smell the turkey, and cranberry sauce, and mince pies, and everything right now? Can't you almost hear those three wonderfully simple, simply wonderful words, "Welcome Home, Son"—and feel the hearty, whole souled hand clasp that greets you?

Truly, Thanksgiving is a day of happiness, but if you're going to make your day complete, your clothes must be right—must express the success that has been your's throughout the year.

We're splendidly ready to help you prepare for the occasion, whether you want the "ultra" clothes—the new pinch back suits and overcoats that appeal to every young fellow, or the more conservative models that become older men. Hats, shirts, ties, and the other little things you'll want are here also, in big variety.

Suits \$10 to \$25. Overcoats \$10 to \$25

Nor have we forgotten the youngsters. Our clothes for boys are full of style, but first and last they are made to take the punishment every real live boy gives everything he wears.

training department assisted by the girls of the Domestic Art Department for the purpose of buying material for manual training work proved an unqualified success in every way. The splendid support invariably given to Principal Toops and the Cherry Hill corps by the school patrons was again verified Monday night, when 300 people, almost to a unit, school patrons assembled. The generous encouragement of Cherry Hill patrons has gone far in promoting school success.

The principal feature of the entertainment was an address delivered by Dr. R. M. Hughey and illustrated by eighty hand colored views pronounced by many the finest set of views ever shown here.

Dr. Hughey, who is always a brilliant and most interesting speaker, was especially fluent last night, having spent some time in Italy upon each of his several trips abroad. Dr. Hughey was able to give the personal touch always so delightful in a travel talk.

A number of times, upon request, Dr. Hughey has lectured, absolutely without remuneration, at Cherry Hill and his kindly co-operation with the management is greatly appreciated by both the school and its patrons.

Three rousing choruses were sung by the girls and boys of the Domestic art and manual training departments under the direction of Miss Nellie Rowan.

The audience enjoyed the younger children in a "Story Telling Hour," very capably managed by Miss Irene Hewitt.

After the program the women of the Parents and Teachers Club served refreshments, which were complimentary. The entertaining committee in charge was composed of Mrs. Albert Snider, Chairman; Mesdames Reno, Summers, McLean, Willis, Harry Flee, Merriweather.

A nice sum was cleared putting the department in a safe position for the year.

THREE FAYETTE BOYS WINNERS

Champion Corn Grower of County

Paint Township, Who Produces
Nearly 78 Bushels of Corn to
Acre.

Three Fayette county boys are winners of free trips to Washington, D. C., and New York, and will leave this city December 4th for the week's trip.

The boy winning the first trip given by the Washington Milling Co. is Isaac Morter, of Bloomingburg, R. D. No. 2. Isaac raised 77,749 bushels on an acre of ground.

The next highest was Ralph Minton, of Leesburg, R. 4. This trip was given by Hon. Frank C. Parrett, and Ralph succeeded in producing 67,959 bushels to the acre.

Frank King, Bloomingburg, R. 2, won the third trip, which was given by the M. Hamm Company, of this city. Frank, while not the champion corn grower of the county, produced more corn to the acre than about 99 farmers out of each hundred in Fayette county the past year.

The three young men are now looking forward to the joys of the great trip east—the meeting with President Wilson; trip through the National Capitol; stop at the Waldorf and stay in New York generally.

It will require six special all Pullman trains to carry the boys and girls and their friends who go from all parts of Ohio.

CORN HUSKERS TO FACE CHARGE OF STEALING STOVE

Depart Without Knowledge of Man Who Supplied Them With Necessary Articles to "Batch."

Because three corn huskers, John Glenn and Earl Southern, of Highland county, whom he had engaged to husk corn for him, departed without his knowledge and carried off a stove, razor, bedclothing and other articles belonging to him, Mr. Noah Aiken, of the Anderson pike, appeared before Mayor Oster Tuesday morning and filed affidavits against the three men.

Soon after Mr. Aiken had made complaint, Chief D. L. Moore had the men located and under arrest in Hillsboro, and left Tuesday morning to bring the men back to this city to face charges of petit larceny.

The men appeared at the Aiken residence sometime ago and asked for a job of corn husking. They obtained work and provision was made for them to occupy a vacant house on the farm. As the man did not have sufficient equipment for boarding themselves, a stove, bedding and other articles were furnished by Mr. Aiken, and when he went to the house Tuesday morning he discovered that the Southern had disappeared.

Not only had the Southern disappeared but they had taken virtually everything with them.

The goods stolen are valued at \$12.50, and were shipped to Hillsboro from this city.

The men will be brought back in an automobile, and the price of the stove is expected to be very high before they are through with the job.

PARENTS-TEACHERS CLUB HOLDS SESSION OF MUTUAL BENEFIT

Social Settlement Work and Methods of Amusing and Instructing Children Are Discussed—Story-telling of Miss Rogers Holds Attention.

An interested and appreciative audience of parents and teachers met at the high school building Monday evening.

The opening number was a selection, "Mah Pumpkin Sue," given by the High School Glee Club, directed by Miss Sheen, after which a paper entitled "Social Center Work," was given by Miss Lina Willis.

Miss Willis has had much experience in social settlement and social center work, and had many things of interest and profit to tell.

She spoke in particular of the social center work in Milwaukee, where there are eight different centers. The school buildings are utilized as the meeting places and thus serve a benefit to the entire community. From 4 to 6 o'clock, children between the ages of 8 and 14 are provided for.

Flowers! Flowers! Flowers!

Your Thanksgiving Dinner will not be complete without flowers. See the largest and finest display of Chrysanthemums ever in the city at Brown's Drug Store, Wednesday, Nov. 29th.

having for them a quiet game room, an active game room and various other facilities for their amusement and improvement, with special programs for Saturdays. The evenings are devoted to adults with varied programs and contests.

Each community must work out its own social center work suited to conditions and surroundings.

The time has come when many facilities should be provided for the child's amusement and profit, skilfully directed instead of constantly telling him what he cannot do.

Miss Dorothy Rogers, whose popularity is already established in her story telling to children, next favored the audience with several types of stories suitable for children from five to ten years of age.

The importance of story telling to small children cannot be overestimated, it was agreed, and time spent in this way with them, by the parents and teachers is regarded as of utmost importance.

IN SOCIAL CIRCLES

The following invitations issued to a number of friends Monday heralds a decided departure, and a most delightful one, from the usual form of entertaining:

Miss Florence Ogle invites you to an Irish Story Telling of the Irish Fairy and Folk Lore with the Irish poet, Seumas MacManus High School Auditorium Monday, December the fourth seven thirty

Miss Ogle is paying a high compliment to her friends in inviting them to be her guests to hear one of the most noted literary personages of the day—the Irish author, story teller and lecturer, who brings the land of his birth in vivid word painting.

There is no doubt that Miss Ogle's guests will be favored with a charming program as well as given the opportunity to personally know this celebrity.

Seumas MacManus will read from his latest book "Yourself and the neighbors," concerning which the Baltimore Sun says: "Once in a great many years there is published a book that stands out so pre-eminently above the general run of books that it deserves to be classed among the masterpieces of a country's literature. Such a book is Seumas MacManus' latest book."

Mr. W. W. Millikan and family have moved from the Hammer residence on Hinde street to one of Mrs. Calvin Holmes' double houses on the corner of Washington avenue and East street.

Mrs. Eldon Stinson is the guest of Mr. and Mrs. D. G. Lashly in Weston, O., after a visit with Dr. O. E. Jones, and husband, the latter a nephew, in Toledo. Mrs. Stinson especially enjoyed while in Toledo, being the guest of Mrs. Byron Dawley, formerly Miss Corda Coffman of this city, at a luncheon given by the Toledo Suffragist club of fifty ladies in the banquet hall of the Woman's Building.

Washington friends of the long years of the late Dr. E. C. Hamilton and Mrs. Hamilton's residence in this city, are learning with regret that the Hamilton home on Market street has been broken up and Mrs. Hamilton expects to make her future home with her children. Monday evening Mrs. Hamilton, accompanied by Mrs. Carl Hamilton and two children, of Davenport, Iowa, went with Mrs. George Hamilton to her home in Xenia for a few days visit before going with her son, Mr. Carl Hamilton, and family to Davenport to spend the winter. Messrs. George Hamilton and Carl Hamilton joined their families Tuesday evening in Xenia.

MAKING MONEY IN THE MINTS OF "UNCLE SAM"

Some Interesting Facts in an Article Contributed to The Herald for the Benefit of the Public.

People generally are prone to accept without investigation or thought many results which are preceded by a chain of interesting and important details.

Most of us are so occupied in trying to get hold of enough money to pay the present high prices of things to eat and wear that we give little attention to how our money is actually manufactured.

Ex-Auditor T. J. Lindsey has prepared and submitted the following very interesting article on that very important subject.

"Money is the root of nearly all our joys and sorrows. The struggle for its possession begins at the cradle and ends only at the grave.

"There are many interesting things connected with money history, that are not generally known.

"The invention and use of coins is attributed to the Lydians about 625 B. C., whose money was of gold and silver. The dating of coins in the year of our Lord was generally adopted by nations, notably during the reign of Queen Elizabeth of England in 1558 to 1603.

On all our gold and silver coins we find the motto: "In God We Trust." It is said to have been suggested to S. P. Chase, Secretary of the Treasury in 1861, in a letter from a resident of Maryland, and was referred to the Director of Mint, James Pollock. Mr. Pollock, in his report of 1862, discussed the matter, but Congress paid no attention to it. Mr. Chase in his next annual report again brought up the subject, therefore a two cent bronze piece was authorized by Congress the following year, April 22, 1864, and upon this the motto was first stamped.

"On March 3, 1865 the Director of the Mint was authorized to place it on all the gold and silver coins of the United States.

Since 1869 all dies used in the mints are destroyed at the end of each year. The designs of all coins are changed every twenty-five years, the mints are now making a new design of the half dollar, quarter and dime.

The story of the Confederate States coinage is one of the curios of our National History.

When Louisiana seceded, the United States mint at New Orleans was seized and the state jointly with the Confederate Government issued a gold coinage of \$254,820 in double eagles, and a silver coinage of \$1,101,316.50 in half dollars, using the United States dies of 1861. In May, 1861, the little bullion remaining was transferred to the Confederate Government, and the United States dies of 1861 were destroyed.

The Confederate Government having ordered dies of its own for the coinage of silver half dollars, the die only one having been made, was found to be of such a construction, the relief being so high that it could not be used in a mint press.

As the bullion was almost exhausted, and there were no prospects of obtaining more, the mint was closed. From the die made, four pieces were made with a common screw press and these four pieces constituted the entire coinage of the Confederacy.

The half dollar bore a strong resemblance to that of the United States, having on the obverse a Goddess of Liberty, with thirteen stars and the date 1861, and on the reverse a shield with seven stars, a liberty cap, the legend "Confederate States of America" and a wreath half cotton and half cane.

One of the strangest cases in connection with money occurred in the 30's. A man named Josiah Sprinkle lived in one of the roughest sections in Lewis County, Ky. Washington, the county seat, was then a thriving town. One day Sprinkle, then an old man appeared in Washington with a buckskin pouch full of silver dollars of his own make. In every respect they appeared the equal of the National coin, the weight was more than at present, and the quality and ring was all that could be asked for. He spent them freely and everybody accepted them upon the assurance of Sprinkle that they were all right, except they were not made by the United States Mint; upon being asked where he got the silver, he replied: "Oh it don't matter there is plenty of it left."

The inscription on the coins were rudely outlined, and there was no attempt made at imitating the National Coin. On one side of the coin was an Owl, and on the other a six pointed star. The edges were smooth. The piece was larger and thicker than the United States coin. Whenever Sprinkle came to town he spent the dollars of his own make. Finally the Government Agents heard of the matter and came to investigate. Sprinkle was arrested and brought into court, but the dollars were proven to be of pure silver, without alloy, worth more than a dollar each.

After an exciting trial he was acquitted, when the verdict was announced, Sprinkle reached down in his pockets and paid his attorney with his own dollars in the presence of the astonished officials. Sprinkle was never after bothered, and continued to make the dollars until the time of his death. He died suddenly and carried the secret of his silver mine with him.

WILL LOCK UP THE MAZUMA

Banks Warned Against Purchasing Foreign Bills.

RESERVE BOARD'S ACTION

Purchasing of Treasury Bills of Foreign Governments Involving Long Term Obligations Held Undesirable. Investors Advised by Members of the Federal Reserve Board to Proceed With Caution.

Washington, Nov. 28.—American bankers have been warned by the federal reserve board to avoid locking up their funds by purchasing treasury bills of foreign governments involving long term obligations.

While specifically disclaiming "any intention of reflecting upon the financial stability of any nation," the board advises all investors to proceed with caution and formally announced to member banks of the federal reserve system that with the liquid funds which should be available to American merchants, manufacturers and farmers in danger of being absorbed for other purposes, it "does not regard it in the interest of the country at this time they invest in foreign treasury bills of this character."

The statement is regarded in official circles as one of the most important declarations by the board since its creation. Officials would not discuss the question for publication, but some of them informally interpreted the warning as the reserve board's answer to the recent proposal of J. P. Morgan & Company, British fiscal agents in this country, to have American bankers accept British treasury bills of an indefinite total issue, secured by gold reserves held in Ottawa. Such loans would be for ninety days, with the privilege of renewal for five other ninety day periods.

H. P. Davidson of the Morgan firm was in Washington recently and conferred with President Wilson and some of the members of the reserve board. It was said later that he sought to have the banks of the reserve system authorized to buy British treasury bills as if they were bills of exchange to cover commercial transactions.

Danger from further importation of large amounts of gold, the board says in its statement, will arise only in case the gold is permitted to become the basis of undesirable loan expansions and of inflation. Emphasis is laid upon the necessity for caution in putting money into investments which are short term in name, but which "either by contract or through force of circumstances, may in the aggregate have to be renewed until normal conditions return."

NORWEGIANS WORK RICH COAL FIELDS

(Associated Press Cable)

Christiania, Norway, November 28.—The Norwegian Coal Company which bought the American coal fields on Spitzbergen has now completed the preparatory work for getting the mining started and this year will have mined more than 50,000 tons—19,000 tons of which already have been exported to Norway in the time from August 15 to October 1. It is the aim of the company in 1920 to have a yearly production of 400,000 tons. Favorable weather for the four months from June to September will allow an average of 100 days for the shipping of the coal—and there is no difficulty in keeping the mines going the year around.

There are now under construction at Advent Bay great piers with the most modern loading machines so as to permit the loading of 4,000 tons a day. Later similar facilities will be provided at Green Harbor.

It is claimed the quality of this coal is superior to the best English coal—and the Norwegian industry, navy and mercantile marine will take all they can get.

ANXIOUS TO KNOW

(By American Press)

Washington, Nov. 28.—The supreme court of the United States was asked to decide as to the constitutionality of the national defense act under which state militiamen are compelled to take an oath as a federal soldier when called out by the president. The petition was filed by attorneys for Alexander M. Emerson and Alfred P. Lowell of the Massachusetts militia, asking that General Sweetzer, the militia commander, be prevented from putting them on trial before a militia court because they refused to take the federal oath.

MAKING KENTUCKY DRY

Louisville, Ky., Nov. 28.—Prohibitionists have inaugurated a movement here to make Kentucky dry. Should liquor pass from Kentucky every state south of the Ohio river will be under prohibition's ban. The movement in Kentucky is headed by members of the bar, business men, college professors and a former justice of the state court of appeals.

BURGLARY CHARGE FACED BY JACKSON

Logan Jackson, former colored resident of this city, now held in Wilmington, is facing a charge of burglary.

The young man was found in possession of a robe which had been stolen from a barn on the door of which a lock was broken.

Jackson's companions, "Doc" Chaney and Sam Foley, charged with stealing auto robes, each drew \$200 and the costs and committed to the Xenia workhouse until paid.

AGED WOMAN

Run Down and Feeble—Made Strong by Vinol.

So many people in Washington C. H., and vicinity are in Mrs. Wickersham's condition we ask you to call at our store and get a bottle of Vinol, and if it fails to benefit we will return your money.

In her eighty-second year Mrs. John Wickersham, of Russellville, Pa., says: "I was in a run-down, feeble condition and had lost flesh. A neighbor asked me to try Vinol, and after taking two bottles my strength returned; I am gaining in flesh, it has built up my health and I am feeling fine for a woman of my age. So I get around and do my housework."

The reason Vinol was so successful in Mrs. Wickersham's case was because it contains beef and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened run-down system and create strength.

Right here in Washington C. H., we have seen such excellent results from Vinol that it is a pleasure to know it is doing so much good for old people in other parts of the country.

WHAT THE "Y" IS DOING ON THE BORDER

Y. M. C. A. Is God-send to the American Troops and Major Allen and Lieutenant Paul Praise Great Work There—Keeps Boys Out of Trouble.

What is the Y. M. C. A. really doing for the troops on the Mexican border? This is the question which Mr. Henry Brownell asked himself when he learned that he was expected to address the Older Boys Conference of the Y. M. C. A., which convenes in this city Friday.

Mr. Brownell had been assigned to speak on what the Association is doing on the border, and set about to get some information first hand, so he wired Major Rell G. Allen, of the Fourth Regiment Ohio Infantry, and 1st Lieutenant Billie E. Paul, of Company M, Fourth Regiment, O. N. G., requesting that they answer by night wires.

In response to the wires, Mr. Brownell received the following messages, which gave, first hand, a very definite idea of the great work the Young Men's Christian Association is doing for the troops:

"El Paso, Texas, Nov. 25.

Mr. Henry Brownell:

"The wonderful work of the Y. M. C. A. in the army can hardly be estimated. They are situated in every camp on the border and they are free and clean. Amusement causes the boys to stay out of the city, with its many temptations, and tightens up the halter that might have a tendency to get loose when one gets far away from home and friends.

"It assures you that someone here is interested in you and always ready to lend a helping hand.

"It gives out its teachings in doses that anyone can take.

"Free writing material has caused mothers, wives and sweethearts to get more letters, and Uncle Sam more efficiency.

"Our Brigade ("Y") seats two thousand and is always crowded; concerts, talks and the movies are the chief amusements and all are free.

"The stamp sales average seventy-five dollars per day and has reached two hundred and thirty.

"Unless one is on the ground the work of the "Y" in the army cannot be appreciated. Who pays the bill? I don't know, but whoever it is, God bless them; they are the fathers and mothers of thousands of boys.

"RELL G. ALLEN."

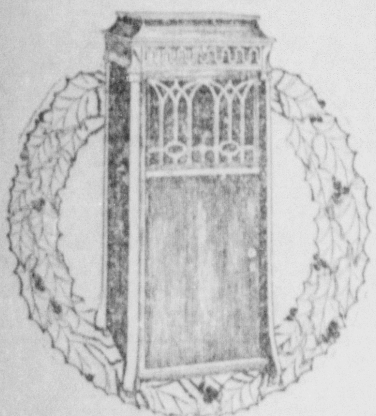

"El Paso, Texas, Nov. 28.

Henry Brownell:

"The Y. M. C. A. is a socializing factor. Associating with men of different states is in a

GOOD RESULTS ARE ANTICIPATED

Dr. B. H. Shadduck, advance worker of the Bromley Evangelistic party, who has been in this city a week or ten days preparing the way for the active campaign, is of the opinion that great results will reward the efforts of the Bromley party in this city, as he finds all of the churches taking an active part in the preparatory work, and the field is a good one for evangelistic work.

Within a short time the work of constructing the tabernacle on the city lot will be taken up, so that all will be in readiness when Dr. Bromley and party arrive.

THOMAS E. WATSON AGAIN ON TRIAL

Augusta, Ga., November 27.—Thomas E. Watson, one time candidate for the presidency on the Populist ticket, will be called to trial in federal district court here today on a charge of having sent obscene matter through the mails. It is the third time Watson, a publisher and author of historical works, has faced trial on the same charge. The first indictment was quashed nearly two years ago on technicalities. He was re-indicted and last December after a lengthy trial the jury disagreed.

The publisher, whose home is at Thompson, Ga., near here, is under an indictment containing four counts based on articles published in his magazine, which the indictment states violates the federal penal code. At his previous trial, which began a year ago tomorrow, Watson claimed immunity for the matter objected to on the ground that it consisted of excerpts from works on Roman Catholic theology which had gone through the mails without question. The matter was used by him in attacks on the Roman Catholic Church and its officials.

ARGENTINA HAS AN INTERESTING CASE

Buenos Aires, Argentina, November 28.—A case of considerable interest to American exporting houses has cropped up here. A consignment of

motor cars from an American factory arrived in Buenos Aires. The invoice price of the cars, sent to the agency in Buenos Aires, were, by the customs authorities, deemed exceedingly low. The minister of Finance was induced to believe that some fraudulent intention underlay the invoice prices, which ranged \$200 to \$300 gold. He fixed the value of the cars, for the purpose of revenue, at from \$340 to \$645 gold.

On behalf of his principals the local agent invited the authorities to take over the cars at the invoice price. After much delay the minister has gone out of office without giving a decision on the point. The cars remain in store pending the decision of the

SYNOPSIS.

Pierpont Stafford, with his daughter Gloria, is wintering at Palm Beach. Gloria is a vivacious but willful young lady who chafes under the restraining hand of a governess from whom she repeatedly escapes. Her childish capers cause young Doctor Royce to fall in love with her. Becoming lost in the everglades she falls into the hands of the Seminole Indians. Gloria falls in love with her rescuer, Frenau. Five years later she leaves school and meets Frenau at the theater, he has forgotten Gloria. Later Frenau persuades her to forgive him. Gloria's sister-in-law, Lois, becomes intensely jealous and Doctor Royce discovers in her an ally. Frenau takes leave of Gloria. She sees from her window an attack made upon him. Doctor Royce convinces her it is delirium. A telegram followed by a letter, comes from Frenau. She replies but her telegrams are returned. She evidently sees the supposed suicide of Frenau reported in the paper. Gloria swears to find the murderer. Royce tells what he knows of Frenau. Stafford, Gloria insists on going to Palm Beach. She sees Mulry there. He leaves for the North. She is recognized by her one-time captor, the young Indian chief. He tells her that Royce and not Frenau was her rescuer at that time. Gloria attends night court; she sees Mulry there also. The tramp who attacked Frenau. But Judge Freeman releases him. She follows the tramp, whom he leaves the court. She finds herself in a low saloon dance hall and is selected by one of the patrons as his partner. Doctor Royce, however, follows her and when he attempts a rescue, calls down a riot on their heads. The hall is raided and the crowd, including Gloria and Royce, is arrested and taken before Judge Freeman. The newspapers feature Gloria's arrest. Reporters surround the house. Casimir arrives with the child Gloria promised to adopt. She orders Royce to take Casimir's wife to the Stafford home. She confronts him; he imprisons her, but she ties him up and escapes. By many stages she arrives at home. In the yacht Gloria and the men pursue the barge. Trask fires on them as they near him. In the fight that follows Trask is badly wounded. He is taken to the Stafford home. Royce endeavors to return to Lois her letters to Frenau. During a playful scuffle Gloria sees and recognizes the envelope.

"I lived in agony for a week. Then Frenau's body was found in the lower bay, where the current had taken it. The papers said he had committed suicide because of financial troubles. It seemed best to let the secret go. What could it profit anybody to tell the truth now?"

"When they told me that you had seen the murder done I was aguish. Evidently you did not see me drag the body away. When you pointed out Trask in the night court, I could only believe that you had been mistaken in the man, or that David had hired him. I had not the courage to hold him and let him speak, so I added one more shame to my misfeasance in office."

"And now you know all that I know. Trask is here, David is here. If you want your brother accused in the open court of murder, if you want your family in the headlines of all the papers, then go ahead, turn Trask over to the police and I will take my punishment with the rest."

He walked away heavily as if the burden of life were breaking him down. Gloria stood in a daze, her mind picturing the catastrophe that must overtake the family if she were to speak.

The world was very beautiful, especially here in this paradise. She saw David with Lois. Her heart quivered at the thought of exposing him to public shame. She thought of him cower-
